

Molly, The Portable Rechargeable Night Light

User Instructions

1. Beneath the base you will find a power button. Switch this on.
2. Now tap the light for the first setting which is a bright white light
3. Tap again to activate the multi-color flashing mode.
4. Tap once more to turn lamp off.

Charging

The light is designed to last between 8-12 hours depending on usage. When the light begins to dim recharge the unit using the USB cable provided. This can be used with any USB Plug you use at home such as a cell phone charger (not included).

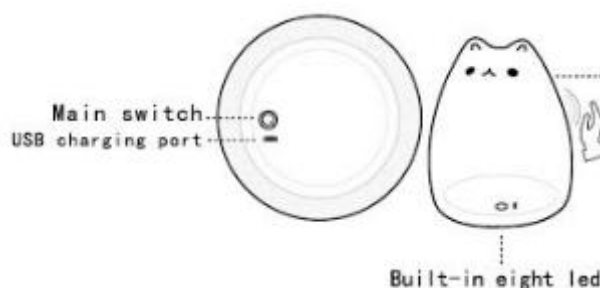

Whilst charging, you will see a small red flashing light from the base of the lamp. Once the light has charged fully, the red light will remain constant without flashing. Now remove the charger to avoid over charging.

Charge time is approximately 3 hours.

PLEASE DO NOT USE THE LIGHT WHILST CHARGING

Cleaning

The outer casing is removable so that you may wash if it becomes dirty. Gently remove it from the base and once cleaned use the grooves in the base to slip the casing back into it.

1. Tap once for white light
2. Tap again for multi-color mode
3. Tap once more to turn off
